## Notice Board

### TO ALL FACULTY

Applications are invited for the following  
Continuing Education Community Consultants:

Campus Consultant, Richmond Campus

Campus Consultant, Langley Campus

Occupational Education Consultant

English/Communications/Humanities Consultant

Faculty with appropriate expertise who  
are interested in undertaking any of these  
positions should apply in writing to Mr.  
J.H. Doerr, Director of Continuing and  
Community Education. Interested applicants  
should note that the Occupational Education  
Consultant will be expected to work closely  
with the Director of Vocational Education,  
as well as with Continuing Education  
personnel on a full-time basis in providing  
leadership in the development of part-time  
occupational education services throughout  
the Douglas College region. Time releases  
for other Consultant positions will be  
negotiated to suit the interest and ex-  
pertise of the successful applicants and  
may include the possibility of combining  
positions. Further information concerning  
the details of these positions is available  
from the Director of Continuing and Commu-  
nity Education located on Surrey campus.

Competition closes January 26, 1979.

J. H. Doerr,  
Continuing and Community Education

### TO ALL FACULTY

The ministry of Education in developing a  
number of interesting programs in "instruc-  
tional techniques". The thrust of this  
development work has been to put together  
packages of information that can be used  
by colleges for orientation and initial  
training of new faculty members.

The programs will be modularized and can be  
offered either complete in a four to five day  
period, or in one-day workshops, or even  
three hours per evening over a longer period.

The Ministry is funding a conference on May 11  
and workshops on May 12 and 13 to familiarize  
trainers with this material.

The conference will be open to anyone, but  
the workshops will be restricted to three to  
five individuals per college.

Douglas College is seeking faculty members  
who would be interested in attending the  
conference and workshops.

If you are interested or would like more  
information please contact Reg Pridham,  
local 270, New Westminster Campus.

R. H. Pridham  
Dean, Educational Services

The following members of the Occupational  
Programs staff are now located on Coquitlam  
Campus:

Ed Redmond  
Director of Occupational Programs (lo. 58)

Bill Reed  
Curriculum Consultant (lo. 45)

Linda Tosczak  
Vocational Programs Clerk (lo. 45)

Jean Hammer  
Occupational Programs Stenographer (lo. 58)

Manfred Baur  
General Mechanics Instructor (lo. 45)

Frank Apel  
Masonry/Stonework instructor (lo. 45)

Bob Sheehan  
Welding Instructor (lo. 45)

Glen Williams  
Counterpart/Partsman instructor (lo. 45)

## NOTES FROM THE ICARE PROJECT:

by Susan Day - Co-ordinator of Volunteers

The first group of volunteers has begun Tutor Training. There has been no trouble in filling the Tutor Training course. In fact, we have been able to accept a few more than the course limit of sixteen.

Planning on the part of I CARE personnel, and high interest expressed by the community has made possible a projection that is favourable in terms of I CARE having a minimum of sixteen trained Tutors available to the community by the beginning of March.

There is currently a list of twenty people who wish to upgrade their literacy by being tutored. This list is expanding at the rate of one to three new names each day. The plan is for these applicants to be assessed in an informal manner before Jan. 31, 1979.

Perhaps the numbers with which we are working do not seem significant, 16-20 Tutors and 20 Learners. The numbers are small, but the program needs to be just as soundly set up and developed for twenty people as for one hundred.

Last month some of the I CARE personnel paid a visit to Portland to observe the thriving Tutoring Program at Portland Community College. The program began eight years ago. The list of learners wanting tutors is so long that a wait of a year is not uncommon.

A total of three hundred tutors are tutoring on a one-to-one basis and another two hundred tutors work in drop-in "Tutoring Centers".

The I CARE Program is already experiencing some of this growth. The office has been besieged with people calling for information. These calls are from prospective learners, prospective volunteers, and professional organizations who are curious about the program.

Research, sound planning, adequate personnel and imaginative public relations, all these factors point to ICARE becoming a success.

### FOR SALE

Men's Ski boot Val d'Isere Size 9 - \$15

Men's warm-up pants Tyral, full side zipper, Size medium, navy - \$15

Ladies warm-up pants, Size 34 Red - \$15

Phone Cathy, Local 248, Surrey Campus

### FILM COURSE

If you work with film in an educational setting and would like to be more effective in using this format, read on.....

The library is sponsoring an 8-session course titled "Effective Use of 16 mm Film in an Educational Setting starting Jan. 30. The topics discussed will be classroom introduction and film discussion, film sensitivity, techniques and evaluation. There will be films viewed in the Social Sciences, English and other Curriculum fields.

Place: New Westminster Campus, Rm. 605

Date: Tues. Jan. 30 - Mar. 20/79

Time: 1900 - 2100 hours

Instructors: Linda Gunson & Liza Hutchison

Fee: \$35.00

## On the outside...

### FLEA MARKET COLLECTION

If Christmas gifts and January sales have overloaded your wardrobes and relegated outmoded ornaments to the basement, now is a good time for housecleaning.

If you are unloading unwanted, useable clothes, books, ornaments, toys and household goods, remember that the Institute of Environmental Studies collects such items for resale at flea markets or carport sales.

Last year less than half-a-dozen people contributed, yet over \$500 was raised for Refugee Aid. Imagine what we could raise if 50 people contributed.

So before you consign things to the dust-bin this year - remember our overseas aid program and deliver them instead to Barry Leach, Hut A6 Surrey Campus - or 13936 Terry Road, White Rock.

## IMPORTANT SAFEGUARDS

For your protection, please read these instructions completely, and keep this manual for future reference.

Carefully observe and comply with all warnings, cautions and instructions placed on the set, or described in the operating instructions or service manual.

### WARNING

To guard against injury, the following basic safety precautions should be observed in the installation, use, and servicing of the set.

### USE

This set should be operated only from the type of power source indicated on the serial/model plate. If you are not sure of the type of electrical power supplied to your home, consult your dealer or local power company. For those sets designed to operate from battery power, refer to the operating instructions.

This set is equipped with a polarized ac power cord plug (a plug having one blade wider than the other), or with a three-wire grounding type plug (a plug having a third pin for grounding). Follow the instructions below:

-For the set with a polarized ac power cord plug:  
This plug will fit into the power outlet only one way. This is a safety feature. If you are unable to insert the plug fully into the outlet, try reversing the plug. If the plug should still fail to fit, contact your electrician to have a suitable outlet installed. Do not defeat the safety purpose of the polarized plug by forcing it in.

-For the set with a three-wire grounding type ac plug:  
This plug will only fit into a grounding-type power outlet. This is a safety feature. If you are unable to insert the plug into the outlet,

contact your electrician to have a suitable outlet installed. Do not defeat the safety purpose of the grounding plug.

Do not overload wall outlets, extension cords or convenience receptacles beyond their capacity, since this can result in fire or electric shock.

Always turn the set off when it is not to be used. When the set is left unattended and unused for long periods of time, unplug it from the wall outlet as a precaution against the possibility of an internal malfunction that could create a fire hazard.

Never push objects of any kind into the set through the cabinet slots as they may touch dangerous voltage points or short out parts that could result in a fire or electric shock. Never spill liquid of any kind on the set.

## DOUGLAS COLLEGE LIBRARY ARCHIVES

Do not use attachments not recommended by the manufacturer, as they may cause hazards.

Unplug the set from the wall outlet before cleaning or polishing it. Do not use liquid cleaners or aerosol cleaners. Use a cloth lightly dampened with water for cleaning the exterior of the set.

If a snapping or popping sound from a TV set is continuous or frequent while the TV is operating, unplug the TV and consult your dealer or service technician. It is normal for some TV sets to make occasional snapping or popping sounds, particularly when being turned on or off.

### INSTALLATION

Do not use power-line operated sets near water—for example, near a bathtub, wash-bowl, kitchen sink, or laundry tub, in a wet basement, or near a swimming pool, etc.

Do not place the set near or over a radiator or heat register, or where it is exposed to direct sunlight.

Do not place the set on an unstable cart, stand, table or shelf. The set may fall, causing serious injury to a child or an adult, and serious damage to the set. Use only a cart or stand recommended by the manufacturer.

The slots and openings in the cabinet and in the back or bottom are provided for necessary ventilation. To ensure reliable operation of the set, and to protect it from overheating, these slots and openings must never be blocked or covered.

-Never cover the slots and openings with a cloth or other materials.
